...and various community members*

August 2011

Dear Retailer:

This letter is to thank you for putting people over profits. By refusing to sell synthetic drugs found in products such as herbal incense and bath salts you are helping make our community a better place.

Though some of these products may not be illegal at this time, we know they pose a health and safety risk to consumers. By refusing to sell them, you have helped prevent customers from suffering illness or injury.

As members of the North Coastal Prevention Youth Coalition (NCPYC), we thank you for your support. In partnership with the North Coastal Prevention Coalition (NCPC), we are trying to eliminate the availability of synthetic drug products in the cities of Carlsbad, Oceanside, and Vista.

Thank you for your attention to this issue. If you have any questions, please call 760-631-5000 to reach Jon Moffat, Youth Coalition Coordinator (x7144) or Erica Leary, Program Manager (x7150). Thank you again for putting people above profits.

Sincerely,

North Coastal Prevention Youth Coalition
